• WELCOME TO OUR INDUSTRY

Welcome to God's Grace International, manufacturers, traders, exporters of packaging material. We take pride in being your reliable partner, delivering innovative, durable, and customized packaging products designed to meet diverse business needs. With a strong focus on quality, sustainability, and customer satisfaction, God's Grace International has become a name that businesses count on across industries.

• ABOUT US

Established with a strong commitment to quality and customer satisfaction, God's Grace International has grown into a trusted name in the packaging industry. We specialize in a wide range of packaging solutions including Corrugated boxes, Wooden Pallets, Anti-Static Films, Air Bubble Rolls, Packaging Sheets, and Custom Protective Materials that are designed to safeguard products during storage and transit.

We have hired an adroit team of employees, which keeps themselves abreast with advanced manufacturing techniques and designs. Further, we also have a quality control unit, wherein, we check our entire range on defined parameters like design, quality and finish. All units are equipped with all the essential tools, machine, and technology in order to manufacture a high-quality range of products.

Under the valuable guidance of our mentor, Mr. Manish Narang, we are growing with a notable rate in the market. He has spent long years in the industry to have rich industrial experience enabling us to understand the varied requirements of our clients.

• OUR STORY

Established in 2023, God's Grace International has grown from a modest beginning into a trusted name in the packaging industry. What started as a vision to provide reliable solutions has now transformed into a brand recognized for quality, innovation, and customer-first values. Over the years, we've consistently focused on delivering packaging that not only protects products but also adds value to businesses. With a commitment to excellence and continuous improvement, God's Grace international Packing proudly stands as a partner of choice for clients across diverse industries

• OUR MISSION

Our mission is clear and impactful: to empower businesses with innovative and dependable packaging solutions that drive success. We go beyond delivering products — we deliver trust, consistency, and lasting partnerships. Every package we create reflects our commitment to quality and reliability, giving our clients the confidence they need to focus on what matters most: growing their business.

• CORE VALUES

- **Quality:** We never compromise on quality. Every product is crafted using premium-grade materials and undergoes strict quality checks to ensure flawless packaging solutions tailored to your needs.
- **Sustainability:** We are committed to a greener tomorrow. Our sustainable packaging options are designed to minimize waste and lower your carbon footprint, helping your business stay eco-conscious.
- **Innovation:** With a passion for progress, we bring you the latest in packaging design and technology. From smart packaging to custom solutions, God's Grace International keeps you ahead of the curve.
- **Customer-Centric:** Your success is our success. We pride ourselves on being a partner that listens to your needs, anticipates your requirements, and goes the extra mile to meet them. Our knowledgeable and responsive team is always ready to assist you.

• UNIVERSAL CORRUGATED BOXES

The use and invention of the Corrugated Board is more than century old and this material was applied in diversified ways. The material utilized here is corrugated cardboard which has low cost while at the same time being lightweight but can also be very strong. However, with respect to its physical properties, it is easily printable. Furthermore, about 75% of corrugated cardboard is made from recycled pulp, which makes it eco-friendly. Consequently more recently it has been applied in response to environmental protection endeavors.

SINGLE WALL

DOUBLE WALL

TRIPLE WALL

KEY FEATURES

1. **Durability:** Corrugated boxes are resistant to crushing, punctures, and abrasion.
2. **Lightweight:** Despite their strength, corrugated boxes are relatively lightweight, reducing shipping costs.
3. **Customizable:** Available in various sizes, shapes, and designs to fit specific products.
4. **Eco-friendly:** Made from recyclable materials, corrugated boxes are a sustainable packaging option.
5. **Versatile:** Suitable for packaging a wide range of products, from fragile electronics to heavy machinery.

• WOODEN PALLETS

Wooden pallets are flat, rectangular platforms made of wood, used for storing, handling, and transporting goods. They're a crucial component of logistics and supply chain management.

KEY FEATURES

- 1. Durability:** Wooden pallets are sturdy and can withstand heavy loads.
- 2. Versatility:** Available in various sizes, types, and configurations to suit different industries and applications.
- 3. Reusability:** Wooden pallets can be reused multiple times, reducing waste and costs.
- 4. Cost-effective:** A cost-efficient solution for shipping and storage.

• ANTI STATIC

Protecting sensitive electronic components during shipping or storage is a top priority. We manufacture Anti Static Bag Pink Color as well as EPE Fitments that are specially designed to protect electronic items from static discharge, dust, and moisture. Our products are made from top-quality materials to provide excellent protection against ESD (Electrostatic Discharge) and are available in different sizes and dimensions to meet your specific packaging needs.

ANTI STATIC BAG PINK COLOUR

EPE FOAM ANTISTATIC

KEY FEATURES

- Effective ESD protection for sensitive electronic components
- Protection against dust, moisture, and physical damage
- Lightweight, durable, and easy to handle
- Available in customized sizes, thicknesses, and designs
- Suitable for PCBs, circuit boards, semiconductors, hard drives, and electronic assemblies
- Compliant with industry packaging standards for electronic products

• LAMINATION RANGE

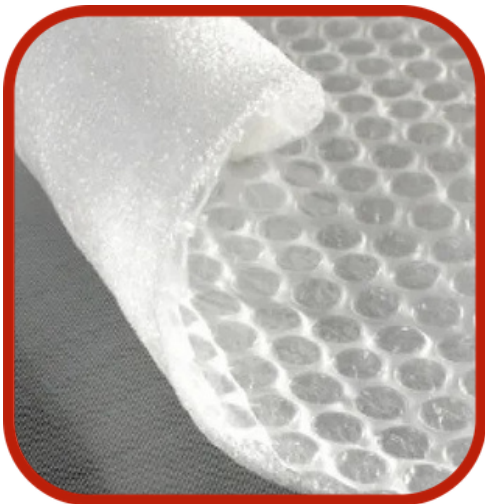

Lamination Range Products

• HMHD ROLLS

We are manufacture the finest quality of HMHD Rolls, uniquely designed and manufactured to offer an excellent hustle free performance. God's Grace International HMHD rolls have exceptionally high strength and reusability making it ideal for many different applications. We only use the finest grade available PE film for lamination of our rolls. To adhere to our customer's needs we also provide God's Grace International HMHD Laminated roll in a wide array of customised products.

• EPE BUBBLE LAMINATE

We are proud to offer the best in class God's Grace International EPE Bubble Lamination product across north India. It is one of the most uniquely placed industry-leading product with combined properties of both EPE foam and Air Bubble, which makes it suitable for a wide range of applications across various industries. We provide best in class service to our customers we offer God's Grace International EPE Bubble Laminated material in many customizable fabricated forms.

• EPE SHEET

We provide a comprehensive range of EPE Foam Sheets, thoughtfully designed to serve the varied requirements of our valued customers. Engineered for durability and versatility, these sheets cater to multiple industrial as well as consumer applications, delivering reliable protection and performance across sectors.

We provide EPE Foam Sheets products to fulfill the needs of our valued customers in all the different industrial and consumer spaces.

FEATURES

- Shock
- Absorption High
- Resiliency
- Cushioning
- Easy Fabrication
- Dust Resistant
- Non-Toxic
- Recyclable
- Thermal Insulation
- Ecofriendly (CFC free)
- Easy Abrasion
- Oil Resistant
- Chemically Inert
- Fungal resistant
- Sound/Vibration Damping
- Water/Moisture resistant

• FABRICATION RANGE

POUCHES

EPE foam pouches are used in various industries, it provides protection from dust and scratches during storage and transportation of goods. We manufacture EPE pouches in a wide variety of sizes and thickness which can also be customized as per the customers' requirements.
